Description of your organisation

We are a community group and registered CIO. Known as the LBSA we are made up of volunteer members with contributors from across the diverse community. We serve to seek potential opportunities to improve the facilities of under-utilised spaces available to the community, promoting opportunities for the less privileged to partake. The plan is to explore land to better utilise spaces through fundraising for developing facilities & encourage participation in sport & health and well-being activities.

Which Trust theme best describes the intended outcome of this project?

Increasing community access to outdoor space

Expression of Interest

Regenerating an area of wasteland to create a mini pitch that would benefit community clubs & their wider families, increasing green space for an area lacking in facilities for a population nearing 6000 people. The council are unable to afford the upkeep of a currently overused pitch, leading to its worsening, unusable condition. We will raise funds to revamp said zone, taking the strain away from the one existing field, providing increased access to outdoor space for an underprovided community.

Including preparation time, how many hours has it taken you to fill out this application?
