Hi Emyr Williams,

Thank you for your application on behalf of **Llangennech & Bryn Sports Association** (Cause ID: 51373) to the Co-op Local Community Fund.

After several months of assessing thousands of projects, we're sorry to say that your application for funding has not been successful on this occasion.

We had an overwhelming response, receiving more than 12,000 applications from very worthy causes just like yourselves, so the decision to select just three causes in each of our 1,500 communities was a very challenging one.

Due to the volume of applications received, we're unable to provide detailed feedback about your application. Our store colleagues and Member Pioneers will not be able to provide any additional information regarding your application.

We will of course ensure your cause's bank details and other personal information are safely removed from our records.

Co-operate

As an active cause in your community, we wanted to let you know about [Co-operate](#), our new online community centre. You can add your activity or group to Co-operate which will help you:

- promote your activities, including virtual online events
- tell more people about the impact your group has in the community
- find volunteers
- find equipment and resources

Food Share

We also run a local food donation programme called Food Share, sharing good food from our stores that would otherwise go to waste. If your project is helping local communities gain access to food, why not join our Food Share network? To find out more visit coop.co.uk/environment/food-share/apply.

If you would like to find out more about how the Co-op is supporting local communities, please visit coop.co.uk/communities

We appreciate you taking the time to apply to our fund and we hope you consider reapplying again in 2021.

Best wishes,

April Armstrong
Local Giving Manager
