Emyr

I am awaiting guidance from the County Enforcement Team which has not been received to date.

In the first instance a detailed risk assessment statement has to be produced by the sporting body for Council consideration under both guidance rules from the Welsh government and the sporting controlling bodies prior to allowing use of changing rooms.

The request to have use of the showers would have to be considered and to take account of serious concerns regarding adequate ventilation in the changing room areas of the pavilion.

I await the receipt of the risk assessment statement and I will contact you immediately I have a response from the County Council.

Wyn
