Hi

I contact you on behalf of the Llangennech and Bryn Sports Association (CIO), we are a registered charity (no. 1183362).

We would appreciate further information on how to apply for funding since we fall under the *projects increasing participation in physical activity* category as we seek to develop and maintain new grass roots health and well-being facilities.

I look forward to your response.

Dear Emyr

Apologies for the late reply to your enquiry.

Would you be able to provide me with a little more information? Principally what activities or facilities your organisation would be applying to the Trust to fund.

I look forward to hearing from you

Best wishes

Andrew

Hi Andrew

Thanks for getting in touch. Essentially the organisation would be looking to fund the development of an area that is currently not being utilised to its full potential which would allow us to make a small playing field which would be fit for use by the whole community. We have a commitment from a number of sport and exercise clubs within the community that they would make use of the area. Those who stand to benefit the most would be the Football and Rugby club's junior and mini sections, with an extra field being made available both for midweek training and weekend matches. About 150 children would benefit from the extra playing field from those clubs alone, while it would also help to take some strain off the currently overused field at the same recreation ground as the senior football and rugby teams would also use the new development as a training facility.

Should you require further information to support our bid then please do not hesitate to get in touch.

Regards

Em

Hi Emyr

Hope all is well.

Could you demonstrate wider community benefit – other than sports associated clubs/organisations - that would be able to use the facilities?

Best

Andrew

Hi Andrew

The isolated area is currently in a non-used state and is rather hidden away - it is therefore a haven for irresponsible dog-owners allowing fouling; it has also has been used as a regular meeting point for under-age drinking, drug use and general anti social behaviour. We feel the development would see the area transformed and discourage these activities.

Aside from that, the open green area would remain open to all public use and the schools within the community (6 of them) all make use of the facilities. This development would further enhance their usage and experience also. There is actually a play school at the site who would potentially make daily use of the area as a safe and well-maintained open green for the children to have outdoor time and become accustomed to their natural surroundings. The area in question is near to the banks of the Loughor Estuary where there is an array of wildlife and plants to see and explore.

We envisage that all income from hired use by said sports clubs would be re-invested in longer-term plans to enhance the area further, with new ideas to make further use of the space and create a more appealing area for the community to enjoy.

Regards

Em

Hi Emyr

I have attached a copy of the Enquiry Form and Guidance Notes. If you need any advice or guidance on completing the Form please give me a call or email me on this address.

Have you received any support from CAVS, if you are registered with them as may be eligible for Landfill Funding for developing green space.

Speak soon

Best
