Dear Em

Firstly apologies for the delay in coming back to you we are changing all of our IT systems and your email may have got caught in the process.

I would need to know how your group is constituted please do you have a constitution that you could send me. When it comes to funding applications you need to do all your background information and make sure that the application is written in such a way that you are telling a story. We would be really happy to proof read any applications. I realise some applications are done online however you can copy and paste and send to us to look through.

Hi Jackie

Thanks for your reply. Please find attached our constitution as requested. This was the one we sent when applying to register as a CIO, so I believe it's quite comprehensive compared to the initial one we drew up. See all the information for the project in hand on our website - <https://www.llanbrynsports.org/phase-1-dog-park-mini-training-pitc>

We also keep a timeline of events as they develop. I will be accessing the application tonight. I shall draw it up and send to you by Friday hopefully if you would kindly review it as the application deadline is Tuesday 4th February.

Thanks, I look forward to your guidance.

Em
