Simon

Thanks for the response.

The Council will continue to consider and monitor the Section 106 aspect and again I thank you for your comments.

The Council is agreeable in principle with the request for the shed and fencing. There will be a need to discuss further with the Council Surveyor these matters concerning in particular the construction of the shed since ground conditions will be an issue.

Can I therefore ask you to contact the Surveyor to arrange a meeting to discuss the proposal.

Regards

Wyn
