Emir

From your recent presentation to Council regarding the above it is evident that there is insufficient support in the village for this facility.

This is a pity as I think we thought it would be welcomed.

However, it was worth a try and I will advise the Council at its next Meeting to withdraw from this proposal.

Alan

Hi Alan

I agree that the general consensus was that it would be too small and a common sense approach to avoid any time wasting is for the LBSA and council to abandon the initial plan of developing on the footprint of the current court, as to avoid the "white elephant" scenario we discussed.

Since the general idea of such a development clearly remains an attractive proposition to the community, the LBSA have already begun the process of looking into and bringing forward an alternative plan, as was directed by the Chair and councillors at the meeting. We will continue to work towards this.
