Shwmae Ems

Please see reply received from Eric.

As we thought, this looks like the up to date licence agreement we have with the Council as it incorporates all the Cricket field.

Maintenance costs are recharged with invoices and copies of our statement of accounts.

Diolch Eric.

Yes, I thought the same with regards to the whole playing field that the licence agreement in the attachment was the latest one. I will pass your comments on to Emyr.

Rich

This seems to be the only thing we have from the council. I have the printed copy.
As you can see it incorporates the whole playing area, not just the cage as I originally thought.

With regard to maintenance costs, I'm not sure if we have anything in writing but they pay our costs up to £2,500 a year.
I supply them with copies of invoices and our statement of accounts.

Does this help?

Eric

Good Afternoon Both

Eric.. can you provide an answer to the finance agreements we have with the Community Council re: maintenance?
and if available whether you or Keith have any documentation/paperwork to back the agreement?

Now looking back at the minutes from the Community Council 's website, we are halfway through our 10-year
maintenance licence which began in August 2015 (please see attachment).

Any info would be appreciated

diolch

Hi Both.

I spoke with Emyr Williams over the phone this afternoon regarding the LBSA's request to the Community Council for a licence to take over the maintenance of the rugby/football pitch.

The community council have sent him the attached pdf which shows what looks like a copy of our 10 year licence agreement back in 2015 with the Council when we applied for permission for the erection of the compound fence.

Would you be able to confirm that this is the latest agreement?

Now Emyr asked if we could dig out any correspondence we have with regards to how we formally applied for a licence but looking at the last few pages on the pdf it seems all the information is there for him.

Thanks

Rich
