Emyr,

I'm glad that life is now slowly getting back to normal after a very long time of Covid restrictions. However, as Carmarthenshire is the worst hit County in Wales at present and taking account of the fact that there have been Covid cases at both the Community Centre and the Pavilion, a precautionary and phased approach to reopening facilities is, I believe, the best and safest way forward. The shower facilities, as you know have very poor ventilation which will increase exposure to the virus, so I agree that at present, the compromise of opening the Pavilion but restricting the use of the showers is the safest way forward - in the hope that this situation can be reconsidered again in a few weeks. I appreciate that this isn't ideal for the players, but in reaching a decision, the safety of all Pavilion users must be taken into consideration.

Thank you

Gwyneth Thomas
