Hi Gary

Firstly, thanks for the acknowledgement. We understand that both numerous projects will be considered for funding, and that there is a structured process involved with distribution of funds when it comes to s.106.

We did feel it is the correct time to formally register our suggestion with regards to need for improvement of Llangennech's main park, based on ongoing and general community feedback. This, we hope, will aid your process in deciding distribution and the early negotiation of any s.106 funding, should planning be approved.
