Page 2: Summary Description of the Applicant and Project Proposal

Q1

Please provide the full legal name of your Organisation:

Llangennech and Bryn Sports Association

Q2

Please provide a short title for the project, which will then be used in all official correspondence (no more than 1 line of text):

Derelict court Regeneration to MUGA

Q3

Please describe the project and the new or improved facility that will be delivered as a result of any grant funding:

There currently stands a derelict tennis / netball single court facility within the community recreation ground, which is not fit for purpose; with broken down fencing, foliage growing through the tarmac, it is often being used to let dogs off their leashes for fouling.

Grant funding would help boost the hopes of the sports association to help fund the regeneration of the facility to a useable MUGA facility that the whole community could enjoy including the local football, netball and rugby clubs, the playschool, as well as allowing more space for development of new girls and ladies football teams, and the community walking football team and potential for a tennis club to be resurrected.

Q4

Please state the location of the project (full address including venue name, town / village, Local Authority and Post code):

Venue Name: **Llangennech Park**
 Village/Town: **Llangennech**
 Local Authority: **Carmarthenshire County Council, Llangennech & Bryn community council**
 Post code: **SA14 8UU**

Page 3: What is your business case for the proposed project ?

Q5

Please set out why the project is needed (i.e. the problems or challenges it will overcome; what evidence you have that there is demand for this project; please refer to any technical reviews or feasibility studies that you may have completed):

Currently the derelict court is a waste of space, health and safety hazard, being used as a fouling haven for irresponsible dog walkers not to mention an eye sore. It is also a site for anti social behaviour attracting kids on bikes to vandalise and abuse the facility and it's surrounding community buildings.

We have quotes to show this regeneration would be achievable and has the full support of the local community council who have already offered to match fund.

Q6

Please set out how the project will address the needs and challenges referred to above and include a brief description of your vision and future plans: If appropriate, please also describe how the project will enable participation in other sports/physical activities.

A regeneration of the court would provide a new facility and encourage use from all corners as well as eliminate the dog fouling and anti social use. As stated, there is joint interest from football, rugby, netball, cylch meithrin (playschool), local schools and for use of such a MUGA

Q7

Please tell us about the people and communities that will benefit the most from any potential investment (i.e. please provide details of the expected number of additional participants and teams and their demographics - ages, gender, priority communities, people with disabilities, people from BAME backgrounds etc) :

Football;

Girls section - 70 members aged 6-14. Opportunity to develop the ladies section who currently hold "soccer fit" classes.

The community walking football team (aged 18-70). Currently train in facilities outside of the community. This would benefit and allow them to increase participation (currently 24 regulars) to grow.

Football and rugby club Junior and minis - additional space and lights for evening training within the community.

Rugby;

Rugby tots (4-6 years old) currently have no hard standing facility and have to hold seasonal community sessions dependent on the surface conditions.

Netball club- the community club team currently play indoors only at the local leisure centre 6 miles away. They would return and play in summer if a community facility became available to train and play netball games. (Ages 8-40). Would encourage male participation or teams to develop also.

Playschool - a safe and securely fenced hard standing facility that the on-site playschool could use to allow the children to play alternatively to the grassy wet areas they currently have to use.

Personal trainers / coaching business - potential hire to local businesses to carry out one to one training with paying clients. These businesses already exist and use the grass spaces where they can.

Q8

Please provide us with the assurances that you will be able to deliver the impacts referred to above (i.e. what new initiatives and activities will you introduce; please refer to examples of recent activities by your organisation that demonstrates your ability to successfully deliver the project and its impact; please refer to your experience of working with the projected new user groups):

The sport association is a charity set up in the community as a combined effort of all the aforementioned community sports clubs and schools in order to improve community facilities.

With support from the community council we have already taken over the maintenance programme of the main playing field with great results and continue to pull together all corners of our community to work with a common aim of improving shared facilities for communal use and mutual benefit.

Delivery of this project would further enhance that vision.

Q9

Please indicate a realistic planned project start and completion date (i.e. when you are confident you will start and complete the facility works and any project purchases). Please note that in any Phase 1 funding, we will only support projects that are able to be completed by the end of June 2022:

Start:	March 2032
Completion:	August 2022

Page 4: Expected Project Funding

Q10

Please estimate how much the project will cost in total, excluding VAT

£55000

Q11

No

Are you VAT registered?

Q12

How much funding (excluding any potential grant from the Grassroots Facilities Fund) will you be able to contribute towards the project cost (for both confirmed and unconfirmed funding please indicate how much and where the funding will come from) ?If you do not have other funding, this will not prevent us from supporting your project if it scores highly against the other priority criteria. However, we will assess financial need and partnership funding will also enable us to better respond to demand and share the funding more widely.Value of in-kind contributions = these must contribute to reducing the actual facility costs i.e. donations of free professional fees, labour, materials or equipment that will be acceptable to the contractor/warranty

Unconfirmed: £	25,000
Source/Amount	Community council match funding

Q13

How much is the value of the grant you are looking to secure from the Grassroots Facilities Fund (i.e. estimated project cost less the other funding you hope to secure) ?

£25000

Page 5: Security of Tenure

Q14

If you are undertaking capital works on land or a building – who is the owner/Freeholder:

Llangennech community council

Q15

If your organisation is not the owner/Freeholder does your organisation hold:

Either a Lease for no less than 10 years: **Yes**

Or a secure user agreement for a period of no less than 10 years: **Yes**

Q16

If your organisation holds an agreement for less than 10 years please confirm how this is likely to be extended in the event that your grant application is successful

Community council supports this application and understand that a lease is required for us to proceed and would honour any such need to agree

Q17

No

Are you aware of any restrictions or covenant on the land?

Page 6: Planning approval

Q18

No

Do you already have planning approval ?

Q19

Yes

Have you sought advice on the likelihood of securing planning approval ?

Page 7: Relative Priority of this Expression of Interest (EOI)

Q20

If you are submitting more than one expression of interest from your organisation, please indicate the total number of expressions of interest you are planning to register and the priority of this proposal in relation to the others (assuming #1 is the top priority):

Total number of EOIs your organisation has submitted for this fund: **1**

Priority number given to this EOI (compared to the others): **1**
