Pavilion Changing Rooms

E Williams <info@llanbrynsports.org>

27 September 2021 at 10:26

Good morning Wyn

Did you have any update for us on this as the Football club have a west Wales cup tie at the park against Llandarcy on Saturday and the unavailability of showers will impact on local business since they are expecting to bring some 40 people to the village for the day. Should the showers not be available to players after the game then the likelihood will be that they will look to head straight home after the match and not bring the support they would normally do to make the most of their away day in Llangennech. All other clubs and organisations that have hosted our football and rugby teams this season now have full use of their changing facilities.

We would impress upon you that we now require some clarity on this as a matter of urgency. We're aware that the cricket club had use of the pavilion changing facility (as we're certain the bowls club have to their building) so we were expecting a swift response to the initial request to confirm usage.

Thank you in advance
